# MESSAGE FROM DISTRICT DIRECTOR BOBBI DOBLER

Thee Holidays are going to be much different this year and I for one choose to think POSITIVE. Take Thanksgiving I usually begin cooking the Feast all day Wednesday and Thursday sometime I even start on Tuesday. Isn't that crazy for a meal that is often consumed during half time ( football) approximately 12 minutes long. We usually have 11 people for dinner around a table that comfortably seats 8 (squish). Watching the Macy Day Parade are you kidding who has the time not in my world.

This was the first Thanksgiving in 53 years (pre children) that it was just my husband, Muuffie and me. It was lovely almost like being newlyweds of course with a few more gray hairs and a few creaky bones. I'll spare you the details of our first Thanksgiving dinner suffice it to say it could have been our last meal. YES it really was that bad.

Fast forward 2020. I enjoyed watching the entire Parade in my jam-mies. I will confess I did start to cook on Wednesday as my son wanted me to cook a few of his favorites so he could share with his family. He said it would almost be like we were together. I know I'm a pushover. My daughter's family wanted pies. She didn't try to snow me though.

This years dinner was much better than my first attempt. I brought out the good dishes and silverware ( which I didn't have all those years ago) but mostly we brought out years of memories even a little romance. There was nobody pouring over the sale ads planning out the rush of Black Friday..

Basically what I am trying to say is be THANKFUL for today, tomorrow will take care of itself. Use this COVID time as a chance to destress and count your blessings which I pray are many. Have a blessed Holiday Season and remember we will get through this.

District Director Bobbi
